

PFOS and PFOA Position Statement

June 12, 2008

Micrel products do not contain as intentionally additives perfluorooctane sulfonates (PFOS) as identified in European Union Directive 2006/122/EC, Amendment 30.

The content knowledge of materials used in the manufacturing process and in the finished packaged product is based on information provided from third parties.

In addition to PFOS, Micrel does not intentionally add perfluorooctanoic acid (PFOA) to our products.

Micrel takes commercially reasonable steps to provide accurate information, but has not independently conducted destructive testing methods or chemical analysis for PFOS and PFOA.
